

# How will we work together?

Mutual  
benefits

Transparency

Equity

trust & confidence

**PARTNERING**

we work independently of each other's influence or interest

we are aware of each other's work

we consult each other

we contribute ideas to each other's work

we collaborate on some aspects of our work

we co-design our work together around a shared focus (our design)

we co-create the work - boundaries between who said and did what become blurred (it's our work!)
